DATE: September 4, 2001
SUBJECT: PRECAST PRESTRESSED CONCRETE DECK PANELS

The Precast Prestressed Concrete Deck Panel Standards PDP1(SM) have been revised and are attached for your use. The standard drawings have been revised to include several notes from the "Prestressed Concrete Panels" Special Provision. This special provision is being eliminated with the implementation of the 2002 Standard Specifications.

This policy is effective with the January 2002 letting. The revised standards are available on both the Sd drive (S:) and the Structure Design Homepage. The Project Special Provisions and Structure Standards Books will be updated at a later date.
