

# WHAT IS **GO!NC**?

## For an NCDOT Business Unit Data Owner

**GO!NC** supports the publishing of NCDOT Business Unit geospatial data to users

### As a Business Unit

- Use **GO!NC** to publish your data when you want.
- Maintain ownership of and make your own decisions about your data.

### When you Publish Your Data, You Can Create

- Data Services – Turns your data into web services that can be consumed by desktop, web, and mobile apps.
- Web maps – Online maps you create that consume your services and other services, too.
- Applications – Use templates to create more robust or specialized solutions for using your data.

### **GO!NC** Resources Support Your Publishing Activities

- Esri's ArcGIS Online
- SharePoint Support Sites
- Discovery Tools
- Publishers
- GIS Consulting
- Standards and Best Practices
- Internet
- Governance Group
- Technical Support
