

Structure No-Impact Certification

This is to certify that I am a duly qualified engineer licensed to practice in the State of North Carolina. This further certifies that no structures* are located in the areas that would be affected by base flood elevation increases for _____ in

, associated with the proposed construction of _____

*A structure, as defined by FEMA 44 CFR 59.1, is a walled and roofed building, including a gas or liquid storage tank, that is principally above ground, as well as a manufactured home. Structure, for insurance purposes, means:

(1) A building with two or more outside rigid walls and a fully secured roof that is affixed to a permanent site;

(2) A manufactured home ("a manufactured home," also known as a mobile home, is a structure: built on a permanent chassis, transported to its site in one or more sections, and affixed to a permanent foundation); or

(3) A travel trailer without wheels, built on a chassis and affixed to a permanent foundation, that is regulated under the community's floodplain management and building ordinances or laws.
