A MESSAGE FROM THE COMMISSIONER OF THE NORTH CAROLINA DIVISION OF MOTOR VEHICLES

The mission of the North Carolina Department of Transportation Division of Motor Vehicles is to deliver quality motor vehicle services, promote highway safety, and furnish timely and accurate information. We accomplish the goals in our mission statement by providing excellent customer service, enforcing motor vehicle laws, and maintaining the integrity of official DMV records.

In spite of our vigilance, the number of traffic crashes and the number of persons injured in those crashes increased in 1997. And in spite of our vigilance, one person dies on our North Carolina highways every 5.9 hours. In 1997, 1,483 lives were lost on our highways and speeding continues to be a leading factor in all fatal crashes.

In spite of what we know about the causes and the consequences of crashes on our highways, too many drivers ignore the rules of the road and cause problems for all of us.

The statistics in the 1997 Traffic Crash Facts challenge us to try to change the numbers. A single injury is one too many. A single casualty loss from a crash is one too many. A single life lost is one too many.

As you use these statistics for whatever purpose, it is my sincere wish that you will educate yourself and your fellow motorists concerning the personal sacrifices that all of us make to motor vehicle crashes and that you support the staff at the Division of Motor Vehicles as we try earnestly to change those numbers.

Sincerely,

A handwritten signature in cursive ink, appearing to read "Janice H. Faulkner".

Commissioner

LEGEND:

O - No Injury

C - Complaint of pain without visible signs of injury or momentary unconsciousness.

B - Other visible injuries such as bruises, swelling, limping or any painful movement.

A - Bleeding members, distorted member or any condition that required victim to be carried from the scene.

K - Killed

Based on reportable crashes only, and excludes those vehicle types for which belt status is not meaningful (i.e., motorcycles, mopeds, bicycles and pedestrians). Cases where extent of injury or belt usage is unknown or unable to be determined are excluded. "Belt" includes these categories: lap belt, lap and shoulder belt, and child restraint. Information includes data for the period January 1 through December 31, 1997.

Note: Belt use is the use reported by the investigating officer. There is evidence that this reported belt use rate exceeds the actual use rate. During 1997, the observed driver belt use in North Carolina averaged 82 percent as a result of the "Click It or Ticket" campaign.
