A MESSAGE FROM THE COMMISSIONER OF THE NORTH CAROLINA DIVISION OF MOTOR VEHICLES

As much as the North Carolina Department of Transportation (NCDOT) Division of Motor Vehicles (DMV) is about proactive means to motor vehicle safety, there are those who still fail to adhere to the rules of the road and thus cause problems for everyone. Some of those problems involve tragic loss.

In 1996, North Carolina experienced a three percent increase in the number of persons killed on our highways. And speeding continues to be the leading factor in all fatal accidents.

During the past year, the number of people injured in motor vehicle crashes increased two percent. But the total number of crashes decreased three percent.

It is true that accidents do happen. However, it is also true that accidents can be prevented. And prevention begins with education.

With this in mind, the 1996 Traffic Crash Facts serves as a constant reminder of those individuals who suffered in motor vehicle crashes and as a vehicle to educate everyone about the potential dangers when driving an automobile.

As you use these statistics for whatever purpose, it is my sincere wish that you will take them to heart and use them to educate yourself and your fellow motorists concerning the dangers of motor vehicle crashes.

Sincerely,

A handwritten signature in cursive script that reads "Janice H. Faulkner". The signature is written in dark ink and is positioned above the printed name and title.

Janice H. Faulkner
Commissioner

LEGEND:

- O — No Injury.
- C — Complaint of pain without visible signs of injury or momentary unconsciousness.
- B — Other visible injuries such as bruises, swelling, limping or any painful movement.
- A — Bleeding members, distorted member or any condition that required victim to be carried from the scene.
- K — Killed.

Based on reportable accidents only, and excludes those vehicle types for which belt status is not meaningful (i.e., motorcycles, mopeds, bicycles, and pedestrians). Cases where extent of injury or belt usage is unknown or unable to be determined are excluded. "Belt" includes these categories: lap belt, lap and shoulder belt, and child restraint. Information includes data for the period January 1 through December 31, 1996.

Note: Belt use is the use reported by the investigating officer. There is evidence that this reported belt use rate exceeds the actual use rate. During 1996, the observed driver belt use in North Carolina averaged 82 percent as a result of the "Click It or Ticket" campaign.

DEFINITIONS

Alcohol Related Crash — a crash where the investigating officer indicates that a driver, pedestrian, or bicyclist had been drinking.

Fatal Motor Vehicle Traffic Crash — a crash that involves a motor vehicle in transport on a roadway in which at least one person dies within 30 days of the crash.

First Harmful Event — the first event during a crash that caused injury or property damage.

Fixed Object — any object that is a stationary structure or has substantial vegetation attached to the terrain.

Moped — a motor-driven cycle capable of speeds up to approximately 30 miles an hour which can also be pedaled.

Most Harmful Event — the event during a crash that is judged to have produced the greatest personal injury or property damage.

Motor Vehicle in Transport — a motor vehicle which is in motion or on a roadway.

Pedestrian — any person not in or upon a motor vehicle or other vehicle.

Population — estimates of permanent residents of North Carolina as of July 1, 1995 by the Office of State Budget and Management.

Reportable Motor Vehicle Traffic Crash — a crash involving a motor vehicle in transport on a roadway resulting in death, injury, or property damage of \$1,000 or more.

Rural Crash — a crash that occurs in a unincorporated area or city with less than 5,000 population.

Nonurbanized Rural — all unincorporated areas.

Urbanized Rural — incorporated cities with less than 5,000 population.

Type of Crash — classified according to the *first event* on the road which contributed to a motor vehicle traffic crash.

Noncollision Crash — a motor vehicle crash other than a collision.

Ran off Road: a crash in which a motor vehicle in transport leaves the traveled portion of the road without antecedent crash.

Overtaken on Road: a crash in which a motor vehicle in transport overturns without antecedent crash.

Other Noncollision: crashes involving a motor vehicle in transport other than running off road, overturning, or collision.

Collision Crash — a collision of a motor vehicle in transport, its load, its parts, or object set in motion by the motor vehicle, with another road vehicle, other property or pedestrian.

Pedestrian: a collision involving a pedestrian and a motor vehicle in transport.

Motor Vehicle in Traffic: a collision involving two or more motor vehicles in transport.

Parked Motor Vehicle: a collision involving a motor vehicle not in transport and a motor vehicle in transport.

Railroad Train: a collision involving a railway vehicle and a motor vehicle in transport.

Bicyclist: a collision involving a bicycle and a motor vehicle in transport.

Moped: a collision involving a moped and a motor vehicle in transport.

Animal: a collision involving an animal, other than an animal drawn vehicle, and a motor vehicle in transport.

Fixed Object: a collision involving a motor vehicle in transport striking a fixed object.

Other Object: a collision involving a motor vehicle in transport with objects that are movable or moving but not fixed.

Urban Crash — a crash that occurs within an incorporated city of 5,000 population or more.

Vehicle Miles Traveled — estimated on the basis of average (17.69) miles per gallon of fuel sold for motor vehicle use.
