A MESSAGE FROM THE COMMISSIONER OF THE NORTH CAROLINA DIVISION OF MOTOR VEHICLES

The mission of the North Carolina Department of Transportation Division of Motor Vehicles is to deliver quality motor vehicle services, promote highway safety, and furnish timely and accurate information. We accomplish the goals in our mission statement by providing excellent customer service, enforcing motor vehicle laws, and maintaining the integrity of official DMV records.

The 1999 data provides mixed results. While traffic fatalities decreased, the number of crashes increased in 1999. That means a crash occurs every 2.4 minutes in North Carolina. Additionally, every 5.8 hours a person is killed on North Carolina's highways, for a total of 1,506 lives lost in 1999. The leading factor in most of these fatal crashes is speeding.

While the Division of Motor Vehicles and its many partners continue to make strides in promoting safe driving on the highways, too many drivers ignore the rules of the road and cause problems for all of us.

The 1999 Traffic Crash Facts challenge us to try to change the numbers. A single injury is one too many. A single casualty loss from a crash is one too many. A single life lost is one too many.

As you use these statistics for whatever purpose, it is my sincere wish that you would join the crusade for highway safety by educating yourself and your fellow motorists on the disastrous consequences of motor vehicle crashes. Thank you for your continued support of the staff at the Division of Motor Vehicles as we try earnestly to improve highway safety and lower the number of motor vehicle crashes.

Sincerely,

LEGEND:

- O -- No Injury.
- C -- Complaint of pain without visible signs of injury or momentary unconsciousness.
- B -- Other visible injuries such as bruises, swelling, limping or any painful movement.
- A -- Bleeding members, distorted member or any condition that required victim to be carried from the scene.
- K -- Killed.

Based on reportable crashes only, and excludes those vehicle types for which belt status is not meaningful (i.e., motorcycles, mopeds, bicycles, and pedestrians). Cases where extent of injury or belt usage is unknown or unable to be determined are excluded. "Belt" includes these categories: lap belt, lap and shoulder belt, and child restraint. Information includes data for the period January 1 through December 31, 1999.

Note: Belt use is the use reported by the investigating officer. There is evidence that this reported belt use rate exceeds the actual use rate. During 1999, the observed driver belt use in North Carolina averaged 81 percent as a result of the "Click It or Ticket" campaign.
