TRAFFIC CRASH FACTS

NC DEPARTMENT OF TRANSPORTATION
DIVISION OF MOTOR VEHICLES

A MESSAGE FROM THE COMMISSIONER OF THE NORTH CAROLINA DIVISION OF MOTOR VEHICLES

The mission of the North Carolina Department of Transportation Division of Motor Vehicles is to deliver quality motor vehicle services, promote highway safety, and furnish timely and accurate information. We accomplish the goals in our mission statement by providing excellent customer service, enforcing motor vehicle laws, and maintaining the integrity of official DMV records.

Despite all efforts, the number of traffic crashes increased in 2002. A crash occurs every 2.4 minutes on our state highways. Additionally, every 5.6 hours a person is killed for a total of 1,573 lives lost in 1,423 fatal crashes. The leading factor in most of these fatal crashes is speeding. Distractions are cited as contributing circumstances in many crashes.

The Division of Motor Vehicles and its many partners continue to make strides in promoting safe driving on the highways; however, too many drivers ignore the rules of the road and cause problems for all of us.

The 2002 Traffic Crash Facts challenge us to try to change the numbers. A single injury, a single casualty loss or a single life lost is one too many. Please educate yourself and others on the disastrous consequences of motor vehicle crashes.

Thank you for your support and commitment to improving highway safety as we strive to reduce the severity of injuries and the number of motor vehicle crashes.

Sincerely,

LEGEND:

- O** - No Injury.
- C** - Complaint of pain without visible signs of injury or momentary unconsciousness.
- B** - Other visible injuries such as bruises, swelling, limping or any painful movement.
- A** - Bleeding members, distorted member or any condition that required victim to be carried from the scene.
- K** - Killed.

Based on reportable crashes only, and includes vehicle types passenger car, pickup, light truck, sport utility, and van. Cases where extent of injury or belt usage is unknown or unable to be determined are excluded. "Belt" includes these categories: lap belt, lap and shoulder belt, shoulder belt, and child restraint. Information includes data for the period January 1 through December 31, 2002.

Note: Belt use is the use reported by the investigating officer. There is evidence that this reported belt use rate exceeds the actual use rate. During 2000, the observed driver belt use in North Carolina averaged 83 percent as a result of the "Click it or Ticket" campaign.
