Subject: No Through Truck Ordinances (Type and Conversion)

Effective immediately, a new ordinance (type 49) is available for the "No Through Trucks" condition. This ordinance type was primarily created to allow an overlap condition to exist between "No Through Truck" restrictions and STAA reasonable accesses within the TEAAS ordinance system. Attached is a list of 115 active and approved truck prohibition ordinances that were converted to the new ordinance type. This was an administrative change only for these ordinances and does not affect their legal standing or their original effective date.

A "no through trucks" restriction is defined as allowing only trucks with legitimate commerce related business (not including gas, food, or lodging) to travel on a road to their destination and allows these trucks to travel along the remainder of the road once their business has been concluded. Please let me know if you have any questions.
