Title

BOARD OF TRANSPORTATION  
HIGHWAY TRAFFIC ORDINANCES

The Board of Transportation has delegated to the Secretary of Transportation the authority to adopt and promulgate all rules and regulations and ordinances regulating traffic on the highways pursuant to authority of N.C.G.S. 143B-350 (f), (g) (see 19ANCAC 4A.0004).

Pursuant to that delegation, the Secretary of Transportation hereby adopts and promulgates the following ordinances based on traffic and engineering studies performed by the Traffic Engineering Branch, Department of Transportation, and in accordance with General Statute 136-30, 136-54.

US ROUTE CHANGES

DIVISION 3

BRUNSWICK COUNTY

Delete the following routing of US 17 and redesignate as US 17 Business:

US 17 from a point 0.41 mile south of SR 1316, northward to a point 0.08 mile north of SR 1136, a distance of 3.79 miles.

Add the following routing as US 17:

Project 6.23001t from 0.41 mile south of SR 1316, northward to 0.08 mile north of SR 1136, a distance of 4.81 miles.

DIVISION 5

WAKE COUNTY

Delete the following routing of US 64 Business and add as I-440 in and near Raleigh:

I-40 - US 64 (Tom Bradshaw Freeway) from US 1-64 eastward to US 70-401 - NC 50 (South Saunders Street).

Add the following routing of US 64 in and near Raleigh:

US 1 (Cliff Benson Beltline) from I-40 - US 64 (Tom Bradshaw Freeway), northward to SR 1012 (Western Boulevard).

US ROUTE CHANGES

DIVISION 5

WAKE COUNTY

Delete the following routing of US 70 Business and add as US 70 in Raleigh:

US 70 Business - US 401 - NC 50 (South Saunders Street) from SR 1564 (South Wilmington Street) northward to I-40.

Delete the following routing of US 70 Business and add as US 70 in Raleigh and Garner:

US 70 Business - US 401 - NC 50 (South Wilmington Street) from US 401 northward to SR 1564 (South Wilmington Street).

Delete the following routing of US 70 Business and add as US 70 in Raleigh and Garner:

US 70 Business - NC 50 from US 401 eastward to NC 50 (Benson Highway).

Delete the following routing of US 70 Business and add as US 70 near Garner:

US 70 Business from NC 50 eastward to I-40 - US 70.

Delete the following routing of US 70 near Raleigh:

I-40 - US 70 (Tom Bradshaw Freeway) from I-40-440 (Tom Bradshaw Freeway) eastward to US 70.

Delete the following routing of US 70 Business in Raleigh:

I-40 - US 64-70-401 - NC 50 (Tom Bradshaw Freeway) from SR 1511 (South Saunders Street) eastward to I-40 - US 70 (Tom Bradshaw Freeway).

Delete the following routing of US 64-70-401 - NC 50 and add as I-440 in and near Raleigh:

US 64-70-401 - NC 50 (Tom Bradshaw Freeway) from US 70-401-NC 50 (South Saunders Street) eastward to I-40 and US 64-70-401 - NC 50 (Cliff Benson Beltline).

US ROUTE CHANGES

DIVISION 5

WAKE COUNTY

Delete the following routing of US 64-70-401 - NC 50 and add as I-440 in and near Raleigh:

US 64-70-401 - NC 50 (Cliff Benson Beltline) from I-40 (Tom Bradshaw Freeway) northward to US 64 (New Bern Avenue).

Delete the following routing of US 70-401 - NC 50 and add as I-440 in Raleigh:

US 70-401 - NC 50 (Cliff Benson Beltline) from US 64 (New Bern Avenue) northward to US 1-401 (Capitol Boulevard).

Delete the following routing of US 70 - NC 50 and add as I-440 - US 1 in Raleigh:

US 1-70 - NC 50 (Cliff Benson Beltline) from US 1-401 (Capitol Boulevard) northwestward to SR 1798 (Glenwood Avenue).

Add the following routing of I-440 in Raleigh:

US 1 (Cliff Benson Beltline) from SR 1798 (Glenwood Avenue) southward to SR 1012 (Western Boulevard).

Add the following routing of I-440 in Raleigh:

US 1-64 (Cliff Benson Beltline) from SR 1012 (Western Boulevard) southward to I-40 (Tom Bradshaw Freeway).

Delete the following routing of SR 1511 and add as US 70-401-NC 50 in Raleigh:

SR 1511 (South Saunders Street) from I-40 - US 64-70-401-NC 50 (Tom Bradshaw Freeway) northward to SR 1428.

Delete the following routing of SR 1511 and add as US 70-401 NC 50 in Raleigh:

SR 1511 (Dawson-McDowell Street Connector) northward from SR 1428 to SR 1513 (McDowell Street).

US ROUTE CHANGES

Mr. William G. Marley, Jr.  
State Highway Administrator  
State of North Carolina  
Department of Transportation  
P.O. Box 25201  
Raleigh, North Carolina 27611-5201

Mr. Nicholas L. Graf  
Division Administrator  
Raleigh, North Carolina

Xc: Stegall/mc

O: Crowl-

Dear Mr. Marley:

Your letter of January 30 to Division Administrator Nicholas L. Graf requested the addition of 16.74 miles of the Raleigh Beltline from I-40 southwest of Raleigh, northerly around the city center, to rejoin I-40 southeast of Raleigh, to the Interstate System under 23 U.S.C. 139(a). The proposed addition would be numbered I-440, and this number would be carried jointly along existing I-40 to form a full circumferential route around the city.

Your request to add the above described portion of the Raleigh Beltline to the Interstate System under 23 U.S.C. 139(a) is hereby approved. Also approved are the following exceptions to Interstate design standards:

1. Bridge width of 28 feet for three sets of bridges located at Lake Boone Trail, Yadkin Drive, and Old Wake Forest Road. As you have agreed, these bridges will be widened to full Interstate standards as part of the projects already scheduled between 1991 and 1995.
2. A paved right shoulder width of 4 feet on a usable shoulder width of 12 feet from the I-40 southwest junction to the Raleigh-Chapel Hill Expressway. As you have agreed, the shoulder will be improved to full Interstate standards when this portion of the Raleigh Beltline is reconstructed.

The approved route description is as follows:

I-440 - From FAI Route 40 southwest of Raleigh, clockwise around the central business district, to FAI Route 40 southeast of Raleigh.

The route number designation has been assigned subject to the approval of the American Association of State Highway and Transportation Officials.

We advise that the addition of this 16.74-mile highway route, as part of the Interstate System under 23 U.S.C. 139(a), creates no new Federal financial responsibility with respect to it. Interstate routes designated as additions under 23 U.S.C. 139(a) on or after March 9, 1984, are not eligible for Interstate 4R funding.

Sincerely yours,

A handwritten signature in dark ink, appearing to read 'T. D. Larson', with a stylized, flowing script.

T. D. Larson  
Administrator

NOTE: ASHTO should  
approve this request  
in June 1991.

SUBJECT: I-440 Interstate Designation under 23 U.S.C. 139(a); Raleigh  
Beltline, North Carolina

Presently, there are five U. S. and N. C. numbered routes which are carried around downtown Raleigh on an urban freeway loop known locally as the Raleigh (Cliff Benson) Beltline (please see Exhibit "A"). The North Carolina Department of Transportation proposes to relocate four of the five U. S. and N. C. numbered routes from the Raleigh Beltline back to state maintained streets passing through the City of Raleigh. Concurrent with this rerouting, it is proposed to establish a single route, I-440, along the existing Raleigh Beltline (please see Exhibit "B").

For many years, there have been complaints about the confusion created by the array of signs required to carry these five routes around downtown Raleigh. The result is that the major guide signs on the Beltline have become seriously overloaded. This sign overload violates driver expectancy, sometimes causing last second erratic maneuvers by drivers or causing the drivers to end up on the wrong route. This is especially true when, due to the multiple routes, as many as three cardinal directions must appear on the same sign panel.

The concept of sign overloading is discussed in the Manual on Uniform Traffic Control Devices (MUTCD). The MUTCD provides basic guidance on maximum message length. In addition, there have been several research studies as well as courses on Positive Guidance which result in recommendations to keep highway signing as simple and direct as possible.

Most other states with urban loops around cities served by the Interstate system, carry a single route around the city usually of Interstate designation. The U. S. and State Routes are carried through town.

This method greatly simplifies the task of signing major freeway interchanges.

One additional benefit of having numbered routes through downtown Raleigh is that out-of-town motorists will be able to use the numbered routes to find their way out of town. Presently, there are no numbered routes leading to or from the downtown area.

The existing Raleigh Beltline from I-40 at the US 1/US 64 interchange at Cary to US 64 (New Bern Avenue) around the north side of Raleigh, currently meets Interstate design standards with the following exceptions:

1. The outside paved shoulder width is only 4 feet. (The graded shoulder width is 12 feet)
2. Three sets of dual bridges, each less than 200 feet in length, over Lake Boone Trail, Yadkin Drive and Old Wake Forest Road have substandard clear widths of 28 feet face-to-face of curbs. (The barrier curbs are offset 2 feet from the through traffic lanes with curb widths of 18 inches.)

The 4-mile section from I-40 north to Wade Avenue is programmed for a project feasibility study and/or right of way protection to widen the existing four lanes to six lanes. Construction will commence by the year 2000. The paved shoulder width will also be upgraded to current Interstate standards. The 9-mile section from Wade Avenue to US 64 (New Bern Avenue) on the north side of Raleigh is currently scheduled for widening from the existing four lanes to six and eight lanes. Bridge clearances and paved shoulder widths will be upgraded to current Interstate design standards. A series of four construction projects will be let in FY 91 thru FY 96.

The remaining 4-mile section in the southeast quadrant of the Beltline from US 64 (New Bern Avenue) south to existing I-40 currently meets Interstate design standards. The 8.5-mile segment on the south side of Raleigh currently meets Interstate design standards and is designated I-40. This portion of the Beltline will be coincident with the proposed I-440 Beltline designation.

In consideration of the above signing proposal and the planned construction to upgrade the Raleigh Beltline to Interstate standards, we respectfully request your approval of the facility as an addition to the Interstate system under 23 U.S.C 139(a). This will result in the addition of 16.74 miles to the Interstate system, I-440 MP 0.00 to MP 16.74, as shown on Exhibit "B". Please let us know if you need additional information.

Sincerely,

William G. Marley, Jr., P. E.  
State Highway Administrator

FRANCIS B. FRANCOIS  
Executive Director

AASHTO Special Committee  
on U.S. Route Numbering  
Report to the  
Executive Committee  
October 12, 1991

The AASHTO Special Committee on U.S. Route Numbering met in Milwaukee, Wisconsin, on Friday, October 11, 1991. Those in attendance were: John Tabb, Mississippi, Chairman; Alden Small, Maine; Ralph Wehner, Illinois; Ray Zink, North Dakota; and Donna Tamburelli of the AASHTO staff.

The Committee considered 20 applications from 13 states. All applications were approved as submitted, with the exception of the following:

1. The joint application from Indiana and Michigan for the elimination of U.S. Route 27 was disapproved. The Committee agreed that the request as submitted does not conform with Item 6 of AASHTO's policy statement on the "Establishment and Development of U.S. Numbered Highways," which states, "The Executive Committee shall encourage the State Highway Departments in the development of continuous State route numbers extending into two or more states..."
2. Action was deferred on the applications from Arizona for the elimination of U.S. Route 89, the relocation of U.S. Route 89 Alternate, the Elimination of U.S. Route 89 Business, and the extension of U.S. Route 93. The Committee was unable to consider these changes based on the information submitted. The Committee suggests that Arizona DOT resubmit the applications with more concise information on each route change, and colored area maps showing the proposed addition or change in the route. The Committee also suggests that they consider the motoring public when changing the route numbers.

The application for the relocation of U.S. Route 60 in Arizona was also deferred. The Committee is concerned with the deficiencies on the route. The Committee requests further information on these deficiencies, specifically how they would affect the capacity of the roadway, and how and when the deficiencies will be corrected.

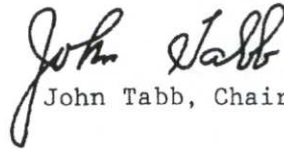

The Committee members then discussed the current process used to solicit the states for any proposed route numbering changes. The Committee concurred that some of the submissions from the member departments were not in conformance

with the specifications contained in the letter and the instructions outlined on the application form.

In order for the Special Committee on U.S. Route Numbering and the Executive Committee to give prompt and proper consideration to each and every request made by a member department, the Committee members strongly urge that each route numbering request conform to the specific criteria contained in the letter and on the application form, specifically, six original applications should be submitted for each change, and colored area maps indicating the proposed alteration in the system should be included. Also, explanations and reasons for the request should be concise and pertinent, and comprehensive information on any deficiencies should be listed.

The Committee members agreed that any applications that do not conform to the criteria will be promptly returned to the member department requesting the change.

Respectfully submitted,

A handwritten signature in dark ink, appearing to read "John Tabb", is written over the printed name.

John Tabb, Chairman

ROUTE NUMBERING COMMITTEE AGENDA  
October 11, 1991  
Milwaukee, Wisconsin

---

**ALABAMA**

Relocation of U.S. Route 431

**APPROVED**

Beginning at the intersection of present U.S. Route 431 and a new facility southeast of Opelika, then northerly over the facility for 1.72 miles to the intersection of present U.S. Route 431 east of Opelika.

**GEORGIA**

Relocation of U.S. Route 27  
and Recognition of U.S. Route  
27 Business

**APPROVED**

Beginning at the intersection of present U.S. Route 27 and State Route 744 north of Cedartown, then southerly over S.R. 744 for 5.2 miles to the intersection of present U.S. Route 27 south of Cedartown. Redesignate present U.S. Route 27 between these points as U.S. Route 27 Business.

Relocation of U.S. Route 278

**APPROVED**

Beginning at the intersection of present U.S. Route 278 and State Route 744 east of Cedartown, then southwesterly over S.R. 744 for 4.6 miles to the intersection of present U.S. Route 278 west of Cedartown.

Relocation of U.S. Route 76  
and Recognition of U.S. Route  
76 Business

**APPROVED**

Beginning at the intersection of present U.S. Route 76 and State Route 52 north of Dalton, then southeasterly over S.R. 52 for 3.5 miles to the intersection of present U.S. Route 76 east of Dalton. Redesignate present U.S. Route 76 between these points as U.S. Route 76 Business.

Recognition of U.S. Route  
129/441 Bypass

**APPROVED**

Beginning at the intersection of present U.S. Route 129/441 and State Route 24 northeast of Madison, then southerly over the S.R. 24 for 5.4 miles to the intersection of present U.S. Route 129/441 south of Madison.

**GEORGIA (continued)**

Relocation of U.S. Route  
129/441 and Recognition of  
U.S. Route 129/441 Business

**APPROVED**

Beginning at the intersection of present U.S. Route 129/441 and a facility being constructed north of Eatonton, then southerly over the facility for 4.9 miles to the intersection of U.S. Route 441, then southerly over U.S. Route 441 for 0.2 miles to the intersection of present U.S. Route 129/441 south of Eatonton. Redesignate present U.S. Route 129/441 between these points as U.S. Route 129/441 Business.

Relocation of U.S. Route 319

**APPROVED**

Beginning at the intersection of present U.S. Route 319 and State Route 107 east of Fitzgerald, then southerly over S.R. 107 for 1.7 miles to the intersection of present U.S. Route 319 south of Fitzgerald.

**MONTANA**

Relocation of U.S. Route 93

**APPROVED**

Beginning at the intersection of present U.S. Route 93 and Reserve Street south of Missoula, then northerly over Reserve Street to the intersection of I-90 north of Missoula, then westerly over I-90 to the intersection of present U.S. Route 93 northwest of Missoula.

**NEBRASKA**

Relocation of U.S. Route 77

**APPROVED**

Beginning at the intersection of present U.S. Route 77 and I-80 northeast of Lincoln, then southwesterly over I-80 to the intersection of an existing facility west of Lincoln, then southerly over the new facility to the intersection of present U.S. Route 77 southwest of Lincoln.

**PENNSYLVANIA**

Elimination of U.S. Route 422

**APPROVED**

Eliminate the U.S. Route 422 designation between the intersection with present U.S. Route 219 west of Ebensburg and the intersection with U.S. Route 22 in Ebensburg.

**TENNESSEE**

Relocation U.S. Route 321

Revised 9/25/91

REPORT OF THE SPECIAL COMMITTEE ON U.S. ROUTE NUMBERING  
TO THE EXECUTIVE COMMITTEE  
JUNE 10, 1991  
LAKE LANIER ISLANDS, GEORGIA

The Special Committee on U.S. Route Numbering met in Lake Lanier Islands, Georgia on June 9, 1991. In attendance were: John Tabb, Mississippi, Chairman; Ralph Wehner, Illinois; Ray Zink, North Dakota; and Donna Tamburelli, AASHTO, Secretary. Alden Small, Maine, was unable to attend the meeting, but submitted his rating forms to the Committee for the meeting.

Twenty-four applications were considered by the Committee. Twenty-two were approved as submitted.

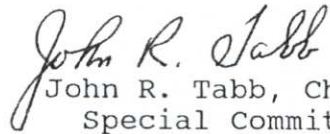

The disposition of the two remaining applications is as follows:

- o The application from Illinois for the establishment of Interstate Route 155 was approved subject to the completion of the Interstate Route.
- o The application from Illinois for the establishment of Interstate Route 172 was approved subject to FHWA concurrence and completion of the Interstate Route.

The Committee received applications from the Illinois DOT for the elimination of Interstate Route 280, the establishment of Interstate Route 174, and the relocation of Interstate Routes 74 and 80 between Rock Island/Moline, Illinois and Davenport/Bettendorf, Iowa.

Since these changes also involve the Iowa DOT, AASHTO contacted them for their submittal. They stated they would not be submitting companion applications. Therefore, the Committee was unable to consider the applications from Illinois at the meeting.

Respectfully submitted,

  
John R. Tabb, Chairman  
Special Committee on  
U.S. Route Numbering

AMERICAN ASSOCIATION OF STATE HIGHWAY AND TRANSPORTATION OFFICIALS
