

North Carolina Department of Transportation
Transportation Mobility and Safety Division

Route Change Request Form

This form shall be completed for all route number change requests affecting Interstates and Primary (US and NC) routes and submitted to the Staff Engineer of the Transportation Mobility and Safety Division (TMSD). A map (or maps) shall also be attached indicating the affected counties and routes.

Route Number/s: NC 37

County/s: Chowan and Washington

Division/s: 1 TIP Project/s: R-3620

General description of request (starting/ending points, etc.):

Extend NC 37 southward along NC 32 between the current southern terminus of NC 37 at NC 32 in Chowan County and the intersection of NC 32 and NC 94 in Washington County, then follow TIP project R-3620 on new location to US 64.

Reason/Justification for this route change:

NC 37 originates just south of the Virginia State Line in Gates County and travels through Perquimans and Chowan Counties before ending in southeastern Chowan County. The logical extension of NC 37 to US 64 will provide a primary route link between the freeway portion of US 64 and the Town of Edenton.
