## ADOPT-A-HIGHWAY SIGN DESIGN FORM

Dear Adopt-A-Highway (AAH) Applicant: \_\_\_\_\_ AAH Agreement No. \_\_\_\_\_

Because of space limitations on AAH signs, the blocks below are designed to allow both the applicant and the sign fabricator to come to an agreement that is practical and convenient.

There is a maximum allowance of 2 lines on a sign, with each line having a maximum of 19 spaces. The sign format is shown below. **Please print one letter per box (Spaces and punctuation marks count as one letter).** If the name is 19 spaces or less, the sign fabricator may find it necessary to place the wording on one line.

The sign fabricator will make the sign as it is written in the spaces below. Specific requests, therefore, must be discussed with your AAH Coordinator.

1. Enter the name of your group, as you want it to appear on the sign panel. (**ABBREVIATION MAY HAVE TO BE USED**)
2. Enter the name of a person, an organization, or a business. (Slogans, dates, addresses, etc. are not permitted).
3. Use only one character per space.
4. Skip one space between each word.
5. Sign fabricator will center the lettering on the sign panel.

### **One line with 19 spaces: MAX. Sign Size 42" X 9"**
