

[TE-PS-22] A COUNTY OF INVOLVED CITIZENS SIGNS

The Board of Transportation has determined to cooperate with county officials by authorizing the erection of "A County of Involved Citizens – Volunteer" signs on State highway rights of way.

Requests should be made to the Division Engineer having jurisdiction. They should be reviewed by the Traffic Engineering and Safety Systems Branch or the Division Traffic Engineer to determine that they will not interfere with other signs. These signs will not be allowed on controlled access facilities. For operating procedures and placement of signs, the Division Traffic Engineer should be contacted.
