CARD ACCESS - ID BADGE

POLICIES AND PROCEDURES

Prepared by:

Security Section
NCDOT

Welcome to our Card Access - ID Badge Program!

A card access program has been installed in many of DOT's buildings. This system has been provided to help reduce theft of DOT property and our employee personal property. If everyone complies with the policies and procedures outlined in this brochure, then we will have a safe and productive work place.

Your ID Badge must be worn at all times while in a DOT building. The ID Badge serves as your personal key for entry into your assigned work location, as well as other DOT buildings during normal working hours.

These policies and procedures have been designed to provide you with ease to enter the buildings during normal work hours, evening hours, weekends and holidays. It also controls access to our visitors and provides them with color coded ID Badges.

Security Guards will control the access doors--greeting visitors and employees, and assigning temporary ID badges. The Security Guards will also be patrolling our buildings, observing for non-compliance to the policies and procedures, assisting employees and visitors as needed, and helping to secure our work place.

If you have suggestions and/or comments concerning the card access - ID badge program, please let us know.

Let's all work for a better work place environment by observing these policies and procedures.

Thank you,

Security Section
