SUBJECT: Lighting Policy

Dave Milton, Bob Brown, and I recently met with Len Sanderson and David King to discuss lighting. The attached draft policy adequately addresses TIP projects. However, we need a procedure for addressing lighting requests on existing facilities. The idea is to develop some procedure to prioritize on a statewide basis. The priority areas would be higher than average nighttime accident locations where lighting could reduce the accident rate. Please have Tommy Cozart reactivate the work group to address this issue. Make sure there is a representative from Division Engineers, Operations, and Traffic Engineering.

Please set up a meeting of the Roadway Lighting Committee to address the backlog of TIP projects.
