

**Section 2B.57 NO FISHING FROM BRIDGE Sign (R20-3)**

**Guidance:**

The NO FISHING FROM BRIDGE (R20-3) sign should be erected where there is a problem with fishing from bridges on Interstate or other controlled-access highways (see Section 19A of the North Carolina Administrative Code (NCAC) 2E.0408).

**Support:**

Counties and municipalities have the authority to regulate fishing from all bridges in the State Highway System that are not controlled-access highways. This also includes the draw span of any regularly attended drawbridge. See General Statutes 136-102.5, 153A-242, and 160A-302.1. This sign does not have to be reflectorized.
