

[TE-PS-11] FIRE DISTRICT SIGN

- a. The erection of FIRE DISTRICT signs will be permitted on highway rights of way under the following conditions:
 1. The design and size of the signs be approved by the Traffic Engineering and Safety Systems Branch of the NCDOT.
 2. The locations for each of the signs be approved by the Traffic Engineering and Safety Systems Branch of the NCDOT.

The NCDOT reserves the right to remove any sign that is not properly maintained. The NCDOT reserves the right to remove any sign should future action by the NCDOT determine that such signs cannot be allowed on highway rights of way. All costs involved in the fabrication, installation, and maintenance of these signs would be the responsibility of the agency requesting the signs.
- b. Requests for permission to erect FIRE DISTRICT signs should be directed to the Highway Division Engineer having jurisdiction in the county in which the sign is proposed.
