MEMORANDUM

TO: Division Engineers

FROM: J. Kevin Lacy, PE, Director of Mobility and Safety

SUBJECT: *Transmittal of Roundabout Brochures*

We are enclosing copies of the recently printed Roundabout Brochures for you and your staff to use at public meetings. This information was put together to help provide a consistent message from all 14 Divisions and other Departments in DOT. This particular flyer is accessible from the Roundabout TEPPL page at **R-38** ~~R-8~~ http://www.ncdot.org/doh/preconstruct/traffic/tepl/Topics/R-8/R38_br.pdf As more of these technical brochures are developed, they will be accessed on the Mobility and Safety main web page, as well as on any corresponding TEPPL page. If you feel these brochures are beneficial to you and you would like to request more copies, please contact Tammy Stewart at tstewart@ncdot.gov. Otherwise, please feel free to print from the link above when you need additional copies.

Additional brochures are being developed such as all-way stops and superstreet brochures. Also, other brochures that have been developed over the years on Traffic Engineering topics will also be accessible on the Mobility and Safety web page as well. If you have any suggestions on other flyers you would like to see developed, or if you notice a needed change to any of the existing marketing information, please contact a member of the marketing work group listed below.

I wanted to express my appreciation to the following people for their continued diligence on this marketing plan group: Kelly Becker, Greg Burns, Jim Dunlop, Terry Hopkins, Drew Joyner, Lee Jernigan, Ed Lewis, Brian Mayhew, Meredith McDiarmid, JoAnn Oerter, Carrie Simpson, Rob Stone, Shawn Troy, Tony Wyatt, and especially Tammy Stewart who coordinated the group's efforts with the Public Information Office.
